WHAT'S
YOUR
LIMIT?

WELCOME REBELS

TO THE
2018 - 2019
WORLD CUP
SEASON!

Every season brings new challenges and we are constantly striving to improve the equipment we offer to all our Rebels. From the feedback our World Cup Rebels give us, to the work put in by all the team at Head as well as the feedback from individuals, we continually refine our products by improving each and every detail. Our goal remains to be the best possible ski racing team by working harder and smarter while never compromising the safety of our athletes.

From the success that our athletes have achieved over the course of the last year at the Olympics and on the World Cup, we believe our equipment will help you achieve new goals and push your limits without compromising your safety. We are always looking to extend our capabilities so that you can enjoy your time on snow. "Whats Your Limit" remains our ethos in bringing you the best equipment.

Enjoy our catalogue and we challenge you to find the rebel inside yourself!

Rainer Salzgeber

WHEN YOU'VE SEEN THE SPEED OF LIGHT

A hundredth of a second isn't the difference between first and second, it's the difference between winning and nothing at all. If you race, you understand. A centimeter is the grandest of canyons, and there's no such thing as fast enough. But thanks to our athletes and their insatiable demand for more speed, better speed, and faster speed, we're all going a lot quicker.

This is trickle-down technology at its finest. Though anything that is so fast could hardly be called a trickle.

RACE COMBO

WHEN YOU'VE SEEN
THE SPEED OF LIGHT
WHEN YOU LIVE ON THE EDGE
WHEN ADRENALIN
IS YOUR ONLY FUEL
WHEN YOU ARE THE ONLY
OPPONENT TO BEAT

WHAT'S YOUR LIMIT?

BEHIND THE SCENES

IT'S EASY TO LOOK AT A SKI OR A BOOT AND FORGET ABOUT THE WORK THAT WENT INTO IT.

That's the problem with brilliant engineering: it only makes itself apparent when the ski disappears beneath you. It's the problem with incredible design: a boot can be so sublimely comfortable that you can totally focus on other things - like the finish line. And it's the burden of every athlete - the faster they go, the easier they make it look.

At HEAD, we're inspired by those who push themselves, drive the sport, and create solutions. And if you ever get to visit our headquarters, you may find that we're inspired pretty much all the time - because we're surrounded by those people every day.

So we'd like to take a moment to say thanks to every staff member and all our athletes. Together, you're pushing the industry forward, and inspiring more and more people to put on skis and discover this beautiful sport. And every time we ask you What's your limit? The answer only opens another question,

What limit?
