

RACING EQUIPMENT

SEASON 22/23

HEAD[®]
.COM

THE COLLECTION FROM THE WORLD'S BEST SKI TEAM!

Olympic medals, World Championship titles, World Cup victories - year after year the HEAD Worldcup Rebels write more impressive chapters in skiing history. In 2021, the Rebels were once again the best ski team in the world. We work hard and with passion to achieve these successes. Together with our athletes we focus on every detail, no matter how intricate. This ongoing and meticulous work makes more than the HEAD Worldcup Rebels the best in the world. Our Racing Collection also contains all the experience of our World Cup team - the successful DNA of the HEAD Worldcup Rebels.

Our World Cup team consists of famous athletes as well as talented new recruits. As a result, we have a strong team at the start of every season. And we are in an excellent position for the future. In every new season we want to show right from the start that we are the clear number one in racing and that victory in all disciplines can only come from the strength of the HEAD Worldcup Rebels team.

Be part of our racing community! Sign up at www.head.com/rebelsclub to join the HEAD Rebels Club and grab some awesome treats. Download the HEAD Rebels Club app, which keeps you up to speed on the latest news and lets you share your favourite hobby with other ski racing fans.

Remember: We make the equipment - you make history!

Yours,
Rainer Salzgeber

WORLD CUP REBELS LINE

HEAD[®]
.COM

BUILT FOR THE BEST, BY THE BEST.

This season, racing history will be made. Because, in the Rebel's world, our research and development is constantly refining all our products. That's why you can have complete trust in everything we make.

A commitment to precision, performance and winning. If one person sums up what Worldcup Rebels purpose is, that person has to be Aksel Lund Svindal, which is why we have worked with him to develop the race line.

A ski you can fully trust with more grip on the snow, letting you fully focus on your technique.

SUCCESSFUL TEAMWORK

Behind every success in racing, there is the hard and tireless work of a great team.

By the time our athletes reach the start line of any race, our service team has already put in many hours of work. Factors such as snow characteristics, slope conditions, snow temperature and air temperature are checked and monitored meticulously. The way the run has been set also plays a decisive role in selecting the right equipment. Once all the parameters are known, it's time for final fine-tuning - so that all our athletes can rely on the best HEAD equipment at every race and in all slope and weather conditions.

All the experience we have gained in the World Cup is integrated into our racing collection. Former HEAD Worldcup Rebels like Aksel Lund Svindal and Anna Veith also still support us with their valuable knowledge. We don't just want to be the best in the World Cup. Everyone who relies on the HEAD racing collection is enjoying their skiing with equipment developed by the HEAD Worldcup Rebels. The best collection from the best ski team in the world!

We make the equipment - you make history!

GOOD VIBES

THE WORLD'S ONLY ELECTRONIC SKI DAMPENING SYSTEM

EMC - ENERGY MANAGEMENT CIRCUIT
REDUCING NEGATIVE VIBRATIONS SO YOU CAN FULLY TRUST
THE SKI AND FOCUS ONLY ON YOUR OWN PERFORMANCE

HEAD[®]
.COM

GOOD VIBES ONLY

YOU CAN TRUST EMC TO DELIVER SMOOTH SKIING
AND EXCEPTIONAL EDGE GRIP, WHATEVER THE CONDITIONS.
WHEN THE SKI BENDS AND VIBRATES, IT TAKES THE
KINETIC ENERGY IN THE SKI AND TRANSFERS IT INTO
ELECTRICAL ENERGY, WHICH IS THEN USED TO ABSORB
NEGATIVE VIBRATIONS FOR A SMOOTHER,
MORE STABLE EXPERIENCE.

THE MASTERS' RACE WEAPON

One model in four different sizes, same wider footprint, distinguished only by its radius. Therefore we can offer a tailor made setup for each individual needs and requests.

The skis offer the same construction and technology as the FIS certified models. The big difference is the wider footprint as it delivers a less aggressive setup but full performance. The lower radius allows for easier and super manoeuvrable handling.

That would be the best characterization as the Masters rules don't follow the FIS rules.

WCR E-GS REBEL PRO

And all is forgiven: this racing machine makes masters racers' hearts race.

WORLD CUP
REBELS

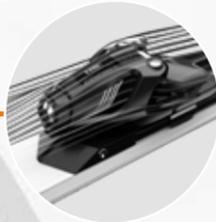

FREEFLEX ST

LESS DRAG, MORE SPEED

LESS DRAG

Aerodynamic design reduces drag by 15%.

INDEPENDENTLY SPRING-LOADED PINCERS

For more precise control when you are pushing your limits.

ADJUSTABLE PRESSURE POINT

Fine tune the Freeflex ST for your skiing.

LOWER CONTACT POINT (ONLY X MODELS)

A 5 mm lower contact point between the rollers and the ski boot for a reduced tilting moment (-25%).

STEEL BASE PLATE

Direct power transmission for ultimate efficiency.

ADAPTIVE SUSPENSION TECHNOLOGY

With adaptive suspension technology including lots of advanced features, HEAD and Tyrolia introduce the ultimate in the race binding segment. Less drag and more speed, locking you into the supreme race experience.

RACE BINDINGS

FREEFLEX ST 20 X RD

The Stream toe of the Freeflex ST 20 X RD ski binding, features independent spring-loaded pincers and even more precise control.

ARTICLE NUMBER

100820 - matt black, Brake [A] 85 mm

PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RD Heel

PRODUCT DETAILS

STAND HEIGHT	16 mm
DIN	10,5 - 20
WEIGHT	3150 g

FREEFLEX ST 20 X RS

The Freeflex ST 20 X RS, a forgiving binding with the innovative Stream toe, offers an increase in both control precision and direct power transmission.

ARTICLE NUMBER

100821 - matt black, Brake [A] 85 mm

PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RS Heel

PRODUCT DETAILS

STAND HEIGHT	16 mm
DIN	10,5 - 20
WEIGHT	3150 g

FREEFLEX ST 16 X RD

With the Freeflex ST 16 X RD ski binding, including the innovative Stream toe, you will be the fastest racer thanks to independent spring-loaded pincers and more direct power transmission.

ARTICLE NUMBER

100822 - matt black, Brake [A] 85 mm

PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RD Heel

PRODUCT DETAILS

STAND HEIGHT	16 mm
DIN	10,5 - 16

RAPTOR WCR

THOUSANDS OF TINY CHANGES, ONE GIANT LEAP IN PERFORMANCE.

Just like our athletes, we continuously fine tune our performance, winter after winter we try, we test, we improve. Hundreds of incremental changes have been made to our famously fast race boot, resulting in one big difference. Every meticulous adjustment has been made with one thing in mind, speed. We think so, our athletes know so, the race boot is the fastest ski boot ever designed.

“Boot feels smoother and easier to turn...”

Lara Gut-Behrami

“...The first part of the turn is also easier without being too aggressive. But everything is very positive so far.”

Johan Clarey

“...I have also a good balance with this boots coming from a better forward position.”

Alexis Pinturault

“My first impression is that it is very stable and has a good driving behaviour...”

Matthias Mayer

CUFF ALIGNMENT

Provides more precise adjustment, more stable connection and less friction between shell and cuff.

BUCKLE POSITIONING

The higher screw racing buckle and compact shell don't touch the snow when achieving high edge angles.

EXTENDED TOE BOX AND MATERIAL

The longer toe box has been designed to reduce torsion and increase power transmission. Combined with PU material, provide a more progressive flex, smooth rebound and less vibration for better control.

RACE BALANCE

Ramp angle: 4°
Forward lean (new): 9°
Forward lean (classic): 16°

WCR BOOT BOARD

The WCR boot board allows a fast and easy fitting.

LIQUID FIT

Precise heel and ankle retention for higher level of performance.

ADJUSTABLE TONGUE

Position the tongue for a perfect personalized fit.

DOWNFORCE

GO FAST. AGAIN TOMORROW.

This is the new benchmark in helmet design. A strong, durable shell in a streamlined, aerodynamic shape that's also extremely light and incredibly safe. It has a speed mode with acoustic adapters and a gate mode where the adapters can be exchanged for a chin guard for slalom disciplines.

1 MODULAR DESIGN

Use the flat adapter plates with optimized acoustics for speed disciplines, the chin guard adapter for slalom disciplines. Both adapter plates are included in the box.

2 OPTIMIZED AERODYNAMICS

The outline of the DOWNFORCE is designed to limit air drag to the minimum. The Spoiler at the back of the helmet diffuses the air stream and therefore adds to the aerodynamics.

3 SUPER LIGHTWEIGHT

Using lightweight components and Dual Density technology, the DOWNFORCE is amongst the lightest racing helmets in the market.

4 HIGHEST SAFETY LEVEL

All DOWNFORCE helmets fulfill the highest safety standards and comply to the EN 1077:2007 Class A, ASTM 2040 and FIS RH 2013 standard. In addition, the MIPS Brain Protection System is available for certain models.

PERFECT RACE UNIT

Developed together with our athletes, the DOWNFORCE helmet line is designed to perfectly integrate race specific goggles.

DOWNFORCE & SENTINEL

A big, bold and aerodynamic race combo. Developed together, the DOWNFORCE helmet curvature is optimized to intake the SENTINEL goggle - the toric goggle with superior field of vision offers an unrestricted view for all conditions.

DOWNFORCE & CONTEX PRO

A modern and trending race combo, which is gaining high popularity amongst our Worldcup Rebels. With its Laminated Double Lens, the CONTEX sits closer to the eyes and offers an unrestricted view, both vertically and horizontally.

DOWNFORCE & HORIZON

A classic race combo, which will never go out of style. The cylindrical HORIZON goggle sits close to the face and is optimized for an unrestricted, horizontal view required for the tuck position. This combo is mainly recommended for smaller helmet sizes.

RACE PROTECTION

DOWNFORCE MIPS

An aerodynamic racing helmet with MIPS designed for competitive racing. The modular system of the DOWNFORCE makes it suitable for all alpine race disciplines.

ARTICLE NUMBER

320110 razzle
320120 white

5K LENS TECHNOLOGY

SEE CRYSTAL CLEAR.

Lens technology is based on the principle to filter the incoming, visible light and optimize the perception of color and contrast. Depending on the purpose of a specific lens, those filter characteristics are different and reflected in the transmission curve. The most important factor to define the characteristics of the lens is the lens dye. The formula for this lens dye is the highest brand asset – HEAD's formula is called 5K

- > COLOR BRILLIANCE
- > HIGH DEFINITION OF CONTRAST
- > INCREASED ATTENTION
- > FOR ALL WEATHER CONDITIONS

THE ALL NEW CONTEX PRO

The CONTEX PRO is packed with tons of features and style. The new Laminated Double lens is enhancing the field of vision by 15%, compared to a traditional double lens construction – it also has supreme anti-fog treatment and reduces lens glare. The unrestricted field of vision is supported by our new 5K lens technology, boosting contrast and color brilliance.

OPTIMIZED TRACTION STRAPS

The straps outlets of this goggle are placed in the front, therefore assuring a snug and secure fit when worn together with a helmet, by optimizing the traction applied.

DYNAMIC VENTILATION SYSTEM

The ventilation system is designed to allow air to enter the goggle from three sides, therefore creating an airstream which assures a perfect climate inside the goggle.

LAMINATED DOUBLE LENS

By connecting the inner lens to the outer lens through a lamination process, there is no gap between the two lenses. This increases the field of vision by 15%. A special anti-fog coating is applied to assure a clear vision in any condition.

RACE PROTECTION

SENTINEL 5K + SPARE LENS

5K

Winter sports goggle designed for racing with a superior field of vision and contrast-enhancing 5K Lens Technology. The face foam can be adjusted in size.

ARTICLE NUMBER
390011 gold/white

PRODUCT FEATURES

JOIN THE REBELS-CLUB!

EXCLUSIVE BENEFITS FOR SKI RACING FANS, INCLUDING A UNIQUE RACING APP.

COMMUNITY

Members of the HEAD Rebels Club can now enjoy very special benefits. Sign up at head.com/rebelsclub to receive the latest news, get invited to exclusive events and receive special Rebels shop offers. The HEAD Rebels Club app - unique in ski racing - is also brand new.

NEWS

Keeping you up to speed on all the latest information about the HEAD Worldcup Rebels, behind the scenes stories and the full range of HEAD racing products.

iSKI-TROPHY

This app tracks your ski days throughout the season. You can win trophies that give you access to competitions. A ranking list and comparison board with other members motivates you to get the most out of your skiing.

FITNESS

The perfect workout for every skier - with the best preparation for the season from summer fitness sessions to special on-snow training for the winter. These workouts have been created with the active Worldcup Rebels, so ski coaches will find them useful too!

REBELS SHOP

Club members can purchase exclusive products from the Rebels Shop. You also have the opportunity to buy selected products before they officially go on general sale.

DOWNLOAD THE APP NOW!
