# RACING EQUIPMENT

SEASON 26/27

# HEAD DNA: DOMINANCE ON ALL LEVELS!

Worldcup Rebels once again proved last season that the top leads only through them. With three World Cup titles by Franjo von Allmen, Camille Rast, and Stephanie Vetter as well as a total of 20 World Cup victories, the world's best skiers celebrated a season full of highlights.

Stephanie Vetter made history once again by claiming her sixth World Cup crystal globe. Altogether, our athletes reached the podium 65 times and with 7.900 points, they once again clearly secured the FIS World Cup ranking.

Their outstanding achievements are no coincidence: they are the result of our work, precise attention to detail, and the unique DNA of the HEAD Worldcup Rebels. This DNA also flows into our racing collection – a collection driven directly by the input of our athletes.

Our experience gives us the confidence to enter the new World Cup season with full energy – convinced that the HEAD Worldcup Rebels will continue to shape the history of skiing.

**HEAD DNA: the equipment - you make history!**

# IT'S NEW THIS SEASON?

## REDESIGNED BACKPACK XL

The newly redesigned Rebels Racing Backpack XL regains renown capacity to carry what athletes need for training or race day. Protecting gear is a priority thanks to the large goggle/ accessories pocket at the top, two wide side pockets for shin and arm guards. The separate boot compartment is accessed from the front and has pockets for small items. Oversize shoulder straps help distribute weight and provide a better carrying solution.

## ION OF WINTER

Norwegian Worldcup Rebel Lie, we created a goggle reflects her strength and At her current hometown ere she trains for success, k shape: timeless winter with the iconic Speed Blue up Rebels – with the very already proven when Kajsa pressive bronze medal in the World Championships in

5K lens technology, this bines performance and ie highest level— available on O 5K RACE and CONTEX PRO

# ONLY ONE BRAND IN SKI RACING MOVES THIS FAST

Our mission is to take what wins on the slopes and put it into every single race ski we build. Worldcup Rebels equipment is not just current, it's the benchmark. HEAD's engineers integrate winning technology into everything they create, with the same precision and intensity that our elite Worldcup Rebels bring to the race course. For the 26/27 season, we've gone further – adding new products and redefining selected models to reach the next level of precision and performance. Think you can keep up?

## REFINED POWER TRANSMISSION FOR OUR YOUNG REBELS

HEAD makes winning technologies available to all. The WCR e-GS REBEL TEAM and the WCR e-SL REBEL TEAM now both have enhanced construction in the sidewalls, so greater pressure can be applied to the edge, for more precise handling and performance on the slopes.

We're committed to elevating performance for all Rebels – including the juniors.

## SAFEST JUST GOT BETTER

Developed for high performance skiing, the new PROTECTOR+ Freeflex now brings the trusted Full Heel Release technology also to the racing segment. With its vertical and horizontal release at the heel, the PROTECTOR+ Freeflex can reduce ACL strain by more than 50%. This can significantly reduce the risk of knee injury.

# TOGETHER, WE BRING TO ATHLETES TO THE PODIUM

To achieve podiums and victories, it takes far more than just a strong athlete. Behind every success stands an expert team working with absolute dedication.

On the way to the start, no detail is left to chance: snow conditions, slope quality, temperature, and course setting are carefully checked and analyzed. Based on this, the right equipment is selected and fine-tuned down to the smallest detail – so that the athlete can place full trust in their gear.

Every race brings new challenges. No race is ever the same, conditions change constantly. Only when everyone in the team works together seamlessly – from service staff to developers to athletes – can the trust be built that is essential for victory.

Our technical expertise comes directly from the World Cup. The HEAD Worldcup Rebels share their experience, which flows into the development of every single race ski. This makes each product more powerful, more precise, and more reliable.

Our goal is clear: to be the most high-

# THE MASTERS' RACE WEAPON

One model in four different sizes, same wider footprint, distinguished only by its radius. Therefore we can offer a tailor made setup for each individual needs and requests.

The skis offer the same construction and technology as the FIS certified models. The big difference is the wider footprint as it delivers a less aggressive setup but full performance. The smaller radius allows for easier and super manoeuvrable handling.

That would be the best characterization as the Masters rules don't follow the FIS rules.

**PRODUCT FEATURES**

Hardshell Technology, MIPS, Dual Density Core, Thermal Ventilation, Chinguard Compatible, Changeable Adapter Plates, Microfleece, Beanie Liner, Removable Neckgator, Metal Chinstrap Buckle, Helmet Pouch Included, EN 1077:2007 Class A, FIS RH 2013, ASTM F 2040

**RD CONSTRUCTION**

The RD construction features carbon reinforcement in the front to endure slalom pole impacts, along with a strong transparent foil for added protection, similar to automotive materials.

**SPEED MODE**

The Acoustiv Adapter plates are optimized for speed disciplines, improving the perception of surrounding sounds and the sense of balance.

**GATE MODE**

The Chinguard Adapter plates are used for mounting a chinguard to the DOWNFORCE helmet for technical disciplines.

**DOWNFORCE**

**SPOILER**

The spoiler at the back of the helmet diffuses the air stream and therefore adds to the aerodynamics, as well as limits the generation of noise.

**STREAMLINED DESIGN**

The outline of the DOWNFORCE is designed to limit air drag to the minimum.

**SUPER LIGHT WEIGHT**

Using lightweight components and Dual Density technology, the DOWNFORCE is amongst the lightest racing helmets on the market.

**DOWNFORCE JR**

**HIGHEST SAFETY LEVEL**

The MIPS Brain Protection System is a helmet-integrated low-friction layer designed to reduce rotational motion

**FIS CERTIFICATION**

All DOWNFORCE models are complying to EN 1077, ASTM 2040 and FIS 2013 standards

**ULTRAMATCH**

Developed together with our athletes, the DOWNFORCE helmet line is designed to perfectly

WORLD CUP  
 REBELS

# IN THE REBELS-CLUB!

THE BENEFITS FOR SKI RACING FANS,  
AND A UNIQUE RACING APP.

## COMMUNITY

HEAD Rebels Club can now enjoy benefits. Sign up at [head.com/](http://head.com/) receive the latest news, get invited to events and receive special Rebels shop products. Download the Rebels Club app - unique in ski racing. Brand new.

to speed on all the latest news from the HEAD Worldcup Rebels. The scenes stories and the HEAD racing products.

## PROFICIENCY

your ski days this season. You can get tips that give you access to a ranking list of the best skiers on board with other skiers. It states you to get the most out of your skiing.

## DIGITAL REBEL!

Rebels Club app can be downloaded from the Google Play Store and

## FITNESS

The perfect workout for every skier - with the best preparation for the season from summer fitness sessions to special on-snow training for the winter. These workouts have been created with the active Worldcup Rebels, so ski coaches will find them useful too!

## REBELS SHOP

Club members can purchase exclusive products from the Rebels Shop. You also have the opportunity to buy selected products before they officially go on general sale.

**DOWNLOAD THE APP NOW!**

# OFFICIAL FIS REGULATIONS

DISCIPLINE	SKI LENGTH (MINIMUM) SKI LENGTH MEASUREMENT TOLERANCE OF +/- 1 CM	RADIUS (MINIMUM)	PROFILE WIDTH UNDER BINDING	PROFILE WIDTH FRONT OF BINDING	MAX. STANDING HEIGHT (SKI/PLATES/BINDING)
DH	m	50	<= 65	<= 95	50
	w	50	<= 65	<= 95	50
SG	m	45	<= 65	<= 95	50
	w	40	<= 65	<= 95	50
GS	m	30	<= 65	<= 103	50
	w	30	<= 65	<= 103	50
SL	m	63	<= 63	<= 63	50
	w	63	<= 63	<= 63	50

\*\* -5cm tolerance for FIS / \*Men U18 (first year) at FIS -10cm tolerance

## U14 (K1) AND U16 (K2)

DISCIPLINE	SKI LENGTH (MINIMUM) SKI LENGTH MEASUREMENT TOLERANCE OF +/- 1 CM	RADIUS (MINIMUM)	PROFILE WIDTH UNDER BINDING	MAX. STANDING HEIGHT (SKI/PLATES/BINDING)
SG	U14 (K1) m/w		<= 65	50
	U16 (K2) m/w	>= 183	<= 65	50
GS	U14 (K1) m/w	<= 188	<= 65	50
	U16 (K2) m/w	<= 188	<= 65	50
SL	U14 (K1) m/w	>= 130		50
	U16 (K2) m/w	>= 130		50

>= minimum / <= maximum
