# THE COLLECTION OF THE BEST SKI TEAM IN THE WORLD!

In 2022 we have again impressively proven that victory in major alpine skiing events and in the World Cup can only go to the HEAD Worldcup Rebels team. At the Olympic Games in Beijing, the absolute highlight of last season, no fewer than six out of ten Gold medals in the individual events went to the HEAD team. In the World Cup we were again the clear number one in the FIS Brand Ranking with 8,275 points.

The fact that so many different athletes can celebrate victory and success with our equipment is only possible if the equipment and the coordination are optimised and everybody works together closely. Our development team really does a great job in achieving this year after year. Their meticulous and consistent work makes more than the HEAD Worldcup Rebels the best in the world. All the experience of our World Cup team also flows into our Racing Collection. As a result, this collection offers everyone who skis with our equipment the best starting point for their own successes. It is the collection of the best ski team in the world!

Be part of our racing community! Sign up at [www.head.com/rebelsclub](http://www.head.com/rebelsclub) to join the HEAD Rebels Club and claim some very special advantages. Download the HEAD Rebels app, which keeps you up to speed with the latest news and lets you share your favourite hobby with other ski racing fans.

**Remember: We make the equipment - you make history!**

Yours,  
**Rainer Salzgeber**  
HEAD Racing Director

# CHASING BETTER

WE PURSUE EXCELLENCE IN OUR PRODUCTS,  
SO YOU CAN BE THE BEST YOU CAN BE.

**HEAD**<sup>®</sup>  
.COM

## WE AT HEAD, OUR ATHLETES AND OUR CONSUMERS ALL STRIVE TOGETHER.

From the experienced craftspeople who develop our products in the Austrian Alps, to the athletes who ride them to the top of the podium, to the everyday skiers who want their next turns to be their best, we all share the same desire for progress.

It's a state of mind, it's in our DNA, it's called Chasing Better.

### HOW OUR ATHLETES ARE CHASING BETTER

At the pinnacle of performance, only total devotion to your craft will keep you on the top step of the podium. Our athletes inspire us with their consistent pursuit of breaking records and smashing limits.

### HOW HEAD IS CHASING BETTER

At HEAD, we are obsessed with developing lighter, faster, safer, funner products, we constantly analyse and improve to be more environmentally conscious and efficient. Progression is at the heart of everything we do.

### HOW WE ARE CHASING BETTER WITH YOU

Wherever you are on the mountain, whatever your objectives, you and the rest of the community are reaching for your next level. Whether that be deeper pow, faster turns, or having an even better day than yesterday.

# SUCCESSFUL TEAMWORK

Behind every success in racing, there is the hard and tireless work of a great team.

By the time our athletes reach the start line of any race, our service team has already put in many hours of work. Factors such as snow characteristics, slope conditions, snow temperature and air temperature are checked and monitored meticulously. The way the run has been set also plays a decisive role in selecting the right equipment. Once all the parameters are known, it's time for final fine-tuning - so that all our athletes can rely on the best HEAD equipment at every race and in all slope and weather conditions.

All the experience we have gained in the World Cup is integrated into our racing collection. Former HEAD Worldcup Rebels like Aksel Lund Svindal and Anna Veith also still support us with their valuable knowledge. We don't just want to be the best in the World Cup. Everyone who relies on the HEAD racing collection is enjoying their skiing with equipment developed by the HEAD Worldcup Rebels. The best collection from the best ski team in the world!

**We make the equipment -  
you make history!**

# BUILT FOR THE BEST, BY THE BEST.

This season, racing history will be made. Because, in the Rebel's world, our research and development is constantly refining all our products. That's why you can have complete trust in everything we make.

A commitment to precision, performance and winning. If one person sums up what Worldcup Rebels purpose is, that person has to be Aksel Lund Svindal, which is why we have worked with him to develop the race line.

A ski you can fully trust with more grip on the snow, letting you fully focus on your technique.

**Aksel Lund Svindal**

## WHAT'S NEW THIS SEASON?

### CONCAVE SIDEWALL

Work and time saved in preparation. Sidewall planing no longer necessary. No unnecessary damage to the sidewall. Edge exposed for tuning.

### A NEW COLOR REPRESENTS A NEW ERA.

Our new accent colour is Speed Blue, developed by HEAD's design team in Austria. Symbolic of what HEAD represents, Speed Blue is fresh, dynamic and powerful, it stands for pure speed and progression, just like our Worldcup Rebels.

**SPEED BLUE**

**THE ALL NEW  
WORLDCUP REBELS  
RACE LINE 23/24**

# GOOD VIBES

## THE WORLD'S ONLY ELECTRONIC SKI DAMPENING SYSTEM

EMC - ENERGY MANAGEMENT CIRCUIT  
REDUCING NEGATIVE VIBRATIONS SO YOU CAN FULLY TRUST  
THE SKI AND FOCUS ONLY ON YOUR OWN PERFORMANCE

**HEAD**<sup>®</sup>  
.COM

## GOOD VIBES ONLY

YOU CAN TRUST EMC TO DELIVER SMOOTH SKIING  
AND EXCEPTIONAL EDGE GRIP, WHATEVER THE CONDITIONS.  
WHEN THE SKI BENDS AND VIBRATES, IT TAKES THE  
KINETIC ENERGY IN THE SKI AND TRANSFERS IT INTO  
ELECTRICAL ENERGY, WHICH IS THEN USED TO ABSORB  
NEGATIVE VIBRATIONS FOR A SMOOTHER,  
MORE STABLE EXPERIENCE.

# THE MASTERS' RACE WEAPON

One model in four different sizes, same wider footprint, distinguished only by its radius. Therefore we can offer a tailor made setup for each individual needs and requests.

The skis offer the same construction and technology as the FIS certified models. The big difference is the wider footprint as it delivers a less aggressive setup but full performance. The lower radius allows for easier and super manoeuvrable handling.

That would be the best characterization as the Masters rules don't follow the FIS rules.

WCR E-GS REBEL

The perfect ski for your next giant slalom mission.

ART.NUMBER	LENGTH	SIDECUT	RADIUS
313043/313053	176	102 / 65 / 87	23,0

# FREEFLEX ST

## LESS DRAG, MORE SPEED

## ADAPTIVE SUSPENSION TECHNOLOGY

With adaptive suspension technology including lots of advanced features, HEAD and Tyrolia introduce the ultimate in the race binding segment. Less drag and more speed, locking you into the supreme race experience.

### FREEFLEX ST 20 X RD

The Freeflex ST 20 X RD is one of the top models in the binding collection and optimized for racing, especially for the technical disciplines.

#### ARTICLE NUMBER

100900 - matt black/speed blue, Brake [A] 85 mm

#### PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RD Heel

#### PRODUCT DETAILS

STAND HEIGHT	16 mm
DIN	10,5 - 20
WEIGHT	3150 g

### FREEFLEX ST 20 X RS

The Freeflex ST 20 X RS is one of the top models in the binding collection and optimized for racing, especially for the speed disciplines.

#### ARTICLE NUMBER

100901 - matt black/speed blue, Brake [A] 85 mm

#### PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RS Heel

#### PRODUCT DETAILS

STAND HEIGHT	16 mm
DIN	10,5 - 20
WEIGHT	3150 g

### FREEFLEX ST 16 X RD

The Freeflex ST 16 X RD is a high performance model and optimized for racing, especially for the technical disciplines.

#### ARTICLE NUMBER

100902 - matt black/speed blue, Brake [A] 85 mm

#### PRODUCT FEATURES

Stream Toe, AFD ST POM (X), Freeflex Pro, RACE PRO RD Heel

#### PRODUCT DETAILS

STAND HEIGHT	16 mm

STAND HEIGHT	17 mm
DIN	3 - 11
WEIGHT	2220 g

EVO 9 GW CA

Light, fast, responsive and fitted with the latest safety technology, the EVO 9 GW CA provides junior racers with race-winning performance.

ARTICLE NUMBER

100921 - solid black/speed blue, Brake [D] 85 mm

PRODUCT FEATURES

SX Lite Toe with TRP System, Full Diagonal, AFS GW AC, SX LITE Heel

PRODUCT DETAILS

STAND HEIGHT 21 mm

DIN 2 - 9

WEIGHT 1570 g

ADDITIONAL SPARE PARTS FOR EVO 9 GW CA

To provide outstanding performance and highest stability also for our young speedstars we offer a vertical blocked slider as spare part. Please note: ONLY for Alpine TYPE C & GripWalk TYPE C ski boots.

Art. No.: 163113 - AFS SX Jr./Kid blocked (Alpine TYPE C & GW C), 1 pair

TUNING KIT ST

Art. No.: 163127

The Tuning Kit offers a variety of options to adapt the binding's stand height and ramp angle for every racer individually. The Tuning Kit includes tuning parts for following binding models:

- HEAD:
- FREEFLEX ST 20 X RD
  - FREEFLEX ST 20 X RS
  - FREEFLEX ST 16 X RD
  - FREEFLEX ST 14 X
  - FREEFLEX ST 16
  - FREEFLEX ST 14
  - FREEFLEX 11 RACE

# RAPTOR WCR

## THOUSANDS OF TINY CHANGES, ONE GIANT LEAP IN PERFORMANCE.

Just like our athletes, we continuously fine tune our performance, winter after winter we try, we test, we improve. Hundreds of incremental changes have been made to our famously fast race boot, resulting in one big difference. Every meticulous adjustment has been made with one thing in mind, speed. We think so, our athletes know so, the race boot is the fastest ski boot ever designed.

“...I have also a good balance with this boots coming from a better forward position.”

**Alexis Pinturault**

“...The first part of the turn is also easier without being too aggressive. But everything is very positive so far.”

**Johan Clarey**

“Boot feels smoother and easier to turn...”

**Lara Gut-Behrami**

“My first impression is that it is very stable and has a good driving behaviour...”

**Matthias Mayer**

### CUFF ALIGNMENT

Provides more precise adjustment, more stable connection and less friction between shell and cuff.

### BUCKLE POSITIONING

The higher screw racing buckle and compact shell don't touch the snow when achieving high edge angles.

### EXTENDED TOE BOX AND MATERIAL

The longer toe box has been designed to reduce torsion and increase power transmission. Combined with PU material, provide a more progressive flex, smooth rebound and less vibration for better control.

### RACE BALANCE

Ramp angle: 4°  
Forward lean (new): 9°  
Forward lean (classic): 16°

### WCR BOOT BOARD

The WCR boot board allows a fast and easy fitting.

### LIQUID FIT

Precise heel and ankle retention for higher level of performance.

### ADJUSTABLE TONGUE

Position the tongue for a perfect personalized fit.

# DOWNFORCE

## GO FAST. AGAIN TOMORROW.

### 1 MODULAR DESIGN

Use the flat adapter plates with optimized acoustics for speed disciplines, the chin guard adapter for slalom disciplines. Both adapter plates are included in the box.

### 2 OPTIMIZED AERODYNAMICS

The outline of the DOWNFORCE is designed to limit air drag to the minimum. The Spoiler at the back of the helmet diffuses the air stream and therefore adds to the aerodynamics.

### 3 SUPER LIGHTWEIGHT

Using lightweight components and Dual Density technology, the DOWNFORCE is amongst the lightest racing helmets in the market.

### 4 HIGHEST SAFETY LEVEL

All DOWNFORCE helmets fulfill the highest safety standards and comply to the EN 1077:2007 Class A, ASTM 2040 and FIS RH 2013 standard. In addition, the MIPS Brain Protection System is available for certain models.

## PERFECT RACE UNIT

Developed together with our athletes, the DOWNFORCE helmet line is designed to perfectly integrate race specific goggles.

### DOWNFORCE & SENTINEL

A big, bold and aerodynamic race combo. Developed together, the DOWNFORCE helmet curvature is optimized to intake the SENTINEL goggle - the toric goggle with superior field of vision offers an unrestricted view for all conditions.

### DOWNFORCE & CONTEX PRO

A modern and trending race combo, which is gaining high popularity amongst our Worldcup Rebels. With its Laminated Double Lens, the CONTEX sits closer to the eyes and offers an unrestricted view, both vertically and horizontally.

### DOWNFORCE & HORIZON

A classic race combo, which will never go out of style. The cylindrical HORIZON goggle sits close to the face and is optimized for an unrestricted, horizontal view required for the tuck position. This combo is mainly recommended for smaller helmet sizes.

### DOWNFORCE MIPS

An aerodynamic racing helmet with MIPS designed for competitive racing. The modular system of the DOWNFORCE makes it suitable for all alpine race disciplines.

IT'S A MATCH.

Perfectly matched to the high demands of the Worldcup Rebels.  
Protective Race Equipment from HEAD.

# 5K LENS TECHNOLOGY

## SEE CRYSTAL CLEAR.

Lens technology is based on the principle to filter the incoming, visible light and optimize the perception of color and contrast. Depending on the purpose of a specific lens, those filter characteristics are different and reflected in the transmission curve. The most important factor to define the characteristics of the lens is the lens dye. The formula for this lens dye is the highest brand asset – HEAD's formula is called 5K

- COLOR BRILLIANCE
- HIGH DEFINITION OF CONTRAST
- INCREASED ATTENTION
- FOR ALL WEATHER CONDITIONS

## THE CONTEX PRO

The CONTEX PRO is packed with tons of features and style. The new Laminated Double lens is enhancing the field of vision by 15%, compared to a traditional double lens construction – it also has supreme anti-fog treatment and reduces lens glare. The unrestricted field of vision is supported by our new 5K lens technology, boosting contrast and color brilliance.

### OPTIMIZED TRACTION STRAPS

The straps outlets of this goggle are placed in the front, therefore assuring a snug and secure fit when worn together with a helmet, by optimizing the traction applied.

### DYNAMIC VENTILATION SYSTEM

The ventilation system is designed to allow air to enter the goggle from three sides, therefore creating an airstream which assures a perfect climate inside the goggle.

### LAMINATED DOUBLE LENS

By connecting the inner lens to the outer lens through a lamination process, there is no gap between the two lenses. This increases the field of vision by 15%. A special anti-fog coating is applied to assure a clear vision in any condition.

### SENTINEL 5K + SPARE LENS

5K

Winter sports goggle designed for racing with a superior field of vision and contrast-enhancing 5K lens technology. The face foam can be adjusted in size.

#### ARTICLE NUMBER

390023 chrome/RD

#### PRODUCT FEATURES

Toric Lens, Double Lens, UV400 & Anti Fog, 5K Lens, Extreme Wide Field of Vision, Triple Layer Foam, Speed Snap Lens Exchange, EVA Case Included, Extra Facefoam, Wind Seal, Spare Lens Included

# JOIN THE REBELS-CLUB!

EXCLUSIVE BENEFITS FOR SKI RACING FANS, INCLUDING A UNIQUE RACING APP.

## COMMUNITY

Members of the HEAD Rebels Club can now enjoy very special benefits. Sign up at [head.com/rebelsclub](http://head.com/rebelsclub) to receive the latest news, get invited to exclusive events and receive special Rebels shop offers. The HEAD Rebels Club app - unique in ski racing - is also brand new.

## NEWS

Keeping you up to speed on all the latest information about the HEAD Worldcup Rebels, behind the scenes stories and the full range of HEAD racing products.

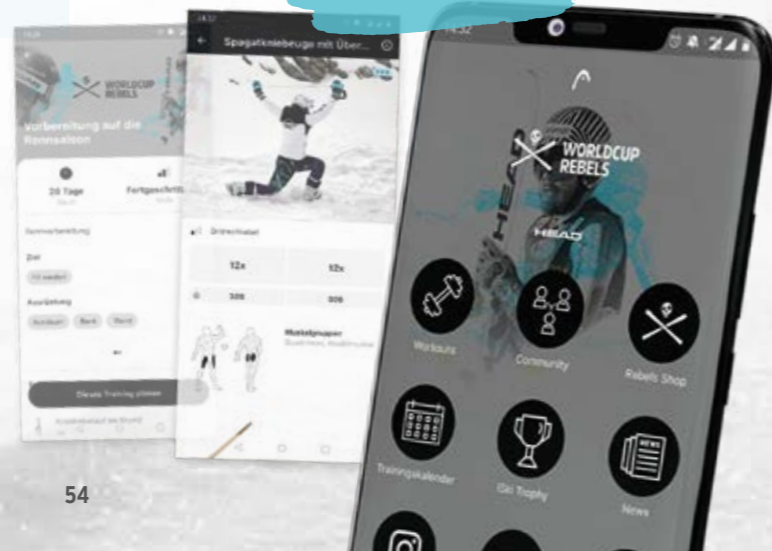

## iSKI-TROPHY

This app tracks your ski days throughout the season. You can win trophies that give you access to competitions. A ranking list and comparison board with other members motivates you to get the most out of your skiing.

## BECOME A DIGITAL REBEL!

The new HEAD Rebels Club app can be downloaded from the Google Play Store and the iTunes App Store.

DOWNLOAD THE APP NOW:

**WORLD CUP  
REBELS**

## FITNESS

The perfect workout for every skier - with the best preparation for the season from summer fitness sessions to special on-snow training for the winter. These workouts have been created with the active Worldcup Rebels, so ski coaches will find them useful too!

## REBELS SHOP

Club members can purchase exclusive products from the Rebels Shop. You also have the opportunity to buy selected products before they officially go on general sale.

DOWNLOAD  
THE APP NOW!

# OFFICIAL FIS REGULATIONS

DISCIPLINE		SKI LENGTH (MINIMUM) SKI LENGTH MEASUREMENT TOLERANCE OF +/-1 CM	RADIUS (MINIMUM)	PROFILE WIDTH UNDER BINDING	PROFILE WIDTH IN FRONT OF BINDING	MAX. STANDING HEIGHT (SKI/ PLATES/BINDING)
