# SIMPLIFY

If you're looking for the best performing ski and snowboard goggle that defeats flat light while providing the widest field of vision in the game and a sleek, almost frameless cylindrical lens style, then SHRED. Simplify is your best choice. It features CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology to enhance contrast and image definition, SHREDWIDE™ to maximize field of view, and a 1-2-3 SHRED REPLACEMENT SYSTEM™ that in just 3 easy steps lets you swap between the included "sun and clouds" and "snow and overcast" CBL lenses. Unleash your potential and take control of the mountains for endless fun.

## FEATURES:

**SHREDWIDE™** | Goggles designed and engineered to maximize your field of view.

**SHRED. CONTRAST BOOSTING LENS™** | Enhances image contrast and definition for all weather and light conditions.

**SHRED. NODISTORTION™** | Pressure regulation valve technology to provide crystal clear vision during altitude change.

**1-2-3 SHRED. REPLACEMENT SYSTEM™** | 3-step quick and easy lens replacement.

**SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

## TECH SPECS:

**LENS** | 2 Ultra-high-optical-precision molded, cylindrical double lenses with tapered thickness to optimize vision at all angles and enhance impact protection | 100% UVA-UVB-UVC protection | Super Anti-Fog

**FRAME** | Width: 195mm | Height: 105mm

**STRAP** | Width: 50mm | Double silicone line backing | 2-point slide adjustment system

**WEIGHT** | 175g **SUGGESTED FIT** | M to XL helmet size

## IN THE BOX:

1 pair of SHRED. Simplify goggles | 1 SHRED. CBL™ spare lens | 2 SHRED. goggle soft cases: one for your goggles and one for your spare lens | SHRED. sticker kit

# RARIFY

If you're hunting for the best goggle with a large spherical lens that kills both flat light and eliminates tunnel-like vision, turn to the SHRED. Rarify, a ski and snowboard goggle that also offers superior fit and comfort. The 2 lenses included with the goggle—a "sun and clouds" lens and a "snow and overcast" lens—feature CONTRAST BOOSTING LENS™ (CBL) and NODISTORTION™ technology to enhance contrast and image definition while SHREDWIDE™ maximizes field of view, giving you the control, confidence, and style you need to reach the next level of performance and stoke. SHRED. Rarify is compatible with prescription glasses (OTG).

## FEATURES:

**SHREDWIDE™** | Goggles designed and engineered to maximize your field of view.

**SHRED. CONTRAST BOOSTING LENS™** | Enhances image contrast and definition for all weather and light conditions.

**SHRED. NODISTORTION™** | Pressure regulation valve technology to provide crystal clear vision during altitude change.

**SHRED. OTG** | Designed to provide compatibility and comfort with prescription glasses.

**SHRED. NOCLOG™** | Hydrophobic treatment on vents to reduce clogging from snow or water and help prevent fogging.

MINI

To rip as hard as you do and share your love for skiing and snowboarding, your little buddy needs the right gear—including a goggle that offers exceptional comfort and the best optical precision available on the market. And this can only be found in the SHRED. Mini. The Mini’s molded spherical lens with Super Anti-Fog provides ultra-high optical precision and impact protection to ensure clear vision even on the most challenging days, allowing young skiers and snowboarders to gain the confidence and control to rip at the next level and have the time of their lives.

**FEATURES:**  
**SUPER ANTI-FOG** | Double lenses combined with a unique heavy duty hydrophilic treatment on the inner lens. **GRIP ON STRAP** | A special design on the inside of the strap to ensure the goggles stay in place and don’t slip off.

**TECH SPECS:**  
**LENS** | Ultra-high-optical-precision molded, spherical double lens with tapered thickness to optimize vision at all angles and enhance impact protection. | 100% UVA-UVB-UVC protection | Super Anti-Fog  
**FRAME** | Width: 155mm | Height: 85mm

# SLAM-CAP NOSHOCK

If you’re looking to venture into the backcountry or lap the resort with a superlight in-mold ski and snowboard helmet that offers a superior fit, exceptional comfort, and unrivaled technology that provides both rotational and linear energy absorption, the SHRED. Slam-Cap NoShock is the clear contender. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with the helmet’s integrated honeycomb-cone-structured SLYTECH™ Foam to create an unparalleled synergy for combating linear and multi-directional forces. Thanks to the Slam-Cap NoShock, you can charge with confidence and boost your performance, style, and fun.

- FEATURES:**
- SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.
  - ENHANCED WITH SLYTECH™** | A patented honeycomb cone structure made of SLYTECH™ Foam is integrated into the EPS impact absorption element to allow impact energy to dissipate in multiple directions for optimal safety.
  - XT2®** | Anti-microbial technology that uses silver to provide permanent odor protection.
  - VENTILATION** | Ultra precise 3-position switch protected by durable housing makes customizing ventilation easy and efficient.

# SLAM-CAP BASE

If you need a lightweight ski and snowboard helmet that features in-mold construction and addresses rotational energy absorption while offering a superior fit and sporting a clean and sleek design, then the SHRED. Slam-Cap Base is just what you need. Thanks to its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—and a ventilation system with a 3-position switch for maximum comfort, the Slam-Cap Base boosts your confidence so you can reach the next level and have a great time in the mountains.

- FEATURES:**
- SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.
  - VENTILATION** | Ultra precise 3-position switch protected by durable housing makes customizing ventilation easy and efficient.

# TOTALITY NOSHOCK

Are you searching for a lightweight yet extremely durable hard shell ski and snowboard helmet that offers a superior fit and comfort and features unrivaled technology to address both rotational and linear energy absorption? Then the Totality NoShock is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with the helmet’s integrated honeycomb-cone-structured SLYTECH™ Foam to create an unparalleled synergy for combating linear and multi-directional forces. The Totality NoShock gives you the confidence you need to reach the next level, feel like a pro, and have fun.

- FEATURES:**
- SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.
  - ENHANCED WITH SLYTECH™** | A patented honeycomb cone structure made of SLYTECH™ Foam is integrated into the EPS impact absorption element to allow impact energy to dissipate in multiple directions for optimal safety.
  - XT2®** | Anti-microbial technology that uses silver to provide permanent odor protection.
  - VENTILATION** | Strategic vent system to channel warm air from the goggles and the front of the helmet to its back, preventing goggles from fogging and the head from sweating.

# BASHER ULTIMATE

Are you a ski racer searching for the best-performing FIS-certified helmet that not only has the lowest profile, fits great, and looks amazing, but is also lightweight and offers unrivaled technology to address both rotational and linear energy absorption? Then the SHRED. Basher Ultimate is the perfect choice. Its ROTATIONAL ENERGY SYSTEM™ (RES)—which is the lightest and thinnest solution for addressing rotational forces—is paired with Casidion™—a nanotechnology-based impact liner that’s thinner and lighter than those used in other racing helmets—to create an unparalleled synergy for combating linear and multi-directional forces. Charge with confidence and boost your performance, style, and fun.

**FEATURES:**  
**SHRED. ROTATIONAL ENERGY SYSTEM™** | Patent-pending technology that manages the effects of rotational accelerations to the head on impact by allowing a relative movement between the helmet and the head through the use of ultra-thin, multi-directional absorption units made with an elastic layer.  
**CASIDION™** | Revolutionary nanotech foam that goes beyond the performance of traditional materials. This absorption element offers protection even in the case of repeated impacts and provides an extraordinarily high impact absorption efficiency, allowing it to be thinner and lighter than other commonly used components.  
**XT2®** | Anti-microbial technology that uses silver to provide permanent odor protection.  
**FIS RH 2013** | Certified according to FIS RH 2013 ski racing helmet safety standards.  
**CUSTOM FIT KIT** | An additional set of thicker pads and ear pieces to fine tune the helmet’s fit.

## NOSHOCK BACK PROTECTORS

If you continually push your limits and are looking for the highest level of protection and enhanced support, SHRED. NoShock Back Protectors are just what you need. Their honeycomb-cone-structured SLYTECH™ Foam provides the highest impact energy absorption performance (Level 2) and offers uncompromised comfort, flexibility, and ventilation. A 3-point belt also supports the lower back. Thanks to Shred's NoShock Back Protectors, you can feel strong, confident, stoked, and in control.

### FEATURES:

**SLYTECH™ FOAM** | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection – even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

**SLYTECH™ NOSHOCK** | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary SLYTECH™ Foam by reducing weight and promoting ventilation.

PROTECTOR'S LENGTH  
SMALL: 49 cm / 19 in  
MEDIUM: 57 cm / 22.5 in  
LARGE: 62 cm / 24.5 in  
X-LARGE: 70 cm / 27.5 in

Grip on straps | 3-point belt

**SAFETY STANDARDS** | EN 1621-2 Level 2 FB (motorbike full back protectors) |

Tested at -20°C

**MATERIAL** | SLYTECH™ Foam

### IN THE BOX:

1 SHRED. NoShock Back Protector Naked | 1 SHRED. sticker kit

# FLEXI BACK PROTECTORS

Are you searching for a back protector that offers maximum comfort so you can forget you're wearing protection until you truly need it? Then the SHRED. Flexi Back Protectors are the perfect choice. By using SLYTECH™ Foam in the FLEXI hexagon structure, they're especially thin and light while also offering unrivaled flexibility and certified impact energy absorption performance (Level 1). Turn to the SHRED. Flexi Back Protectors for unconstrained confidence that enables you to push your limits, feel like a pro, and have fun.

- FEATURES:**
- SLYTECH™ FOAM** | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.
  - SLYTECH™ Flexi** | Slytech™ Foam molded with a hexagon structure is especially thin and light while also offering unrivaled flexibility and certified impact energy absorption.

# FLEXI ELBOW AND KNEE PADS

If you're a mountain biker who loves trail and enduro riding or a skier or snowboarder searching for more protection, the SHRED. Flexi Elbow and Knee Pads are the perfect addition to your kit thanks to their unrivaled comfort, mobility, protection, and pedalability. Their SLYTECH™ Foam protective element molds to your skin to match every move you make and is exceptionally thin, flexible, light, and breathable. Anatomically-shaped Spandex stretch sleeves securely hold the pads in place and Amortex® fabric over the protective element provides abrasion and puncture resistance. Get the confidence you need to feel like a pro and have fun.

**FEATURES:**  
**SLYTECH™ FOAM** | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.  
**SLYTECH™ Flexi** | Slytech™ Foam molded with a hexagon structure is especially thin and light while also offering unrivaled flexibility and certified impact energy absorption.

**FLEXI ELBOW PADS LITE**  
SMALL CODE: PDFELJ11S  
MEDIUM CODE: PDFELJ11M

**MATERIAL** | SLYTECH™ Foam | Amortex® | Spandex  
**IN THE BOX:** 1 SHRED. Flexi Knee Pads | 1 SHRED. sticker kit

# PROTECTIVE SHORTS

Are you a skier or snowboarder searching for lower body protection with such a low profile you can forget you're wearing it until you truly need it? The SHRED. Protective Shorts are the perfect choice. Their honeycomb-cone-structured SLYTECH™ Foam is specifically developed for lower body protection and provides the highest impact energy absorption performance while their Super-stretch Nylon fabric adapts to every move you make. If you're wearing the shorts with a back protector, you can also remove their lower back and coccyx pads to maximize comfort. Get uncompromised protection and comfort to reach the next level and have fun.

**FEATURES:**  
**SLYTECH™ FOAM** | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.  
**SLYTECH™ NOSHOCK** | Patent-pending honeycomb cone structure that further increases the performance, safety, and comfort of our proprietary SLYTECH™ Foam by reducing weight and promoting ventilation.

**PROTECTIVE SHORTS**  
SMALL CODE: PENSHJ11S

**MATERIAL** | SLYTECH™ Foam | Nylon fabric  
**IN THE BOX:** 1 SHRED. Protective Shorts | 1 SHRED. sticker kit

# SKI RACE PROTECTIVE JACKETS

If you're a ski racer looking to protect your upper body from impacts with gates and want unconstrained movement in a design with a low profile, then turn to the SHRED. Protective Ski Race Jackets. Their ultra-thin SLYTECH™ Foam efficiently adapts to different forces and impact speeds, offering protection from gate impacts on the forearms, elbows, shoulders, and shoulder blades. Thanks to the SHRED. Protective Ski Race Jackets, you can gain the confidence you need to reach the next level and feel like a pro.

**FEATURES:**  
**SLYTECH™ FOAM** | Our proprietary foam intelligently and progressively adapts to different forces and impact speeds for thorough protection—even in low energy crashes. Simply put, it stays flexible when you ride but hardens to protect you when you crash.

## CARBON SHIN GUARDS

If you're a ski racer looking for unrivaled performance when you clear slalom gates, SHRED. Carbon Shin Guards are the perfect choice. Their SLYTECH™ SHIELD CARBON advanced composite material provides exceptional protection and features ADVANCED GATE GLIDE technology to minimize friction. And to stay in place, they sport SHRED. GRIP PADS. With their unparalleled shin protection and gate clearing speed, the SHRED. Carbon Shin Guards provide the confidence you need to focus on your skiing and feel like a pro.

### FEATURES:

**SLYTECH™ SHIELD CARBON** | A high performance material blend that combines carbon fiber technology and our SLYTECH SHIELD material to create shells that are extraordinarily durable yet lightweight and that provide the best performance at all temperatures.

**ADVANCED GATE GLIDE** | NOFRICTION PTFE technology blends PTFE into the SLYTECH™ SHIELD CARBON composite material. This serves as a lubricant, reducing friction and drag between the guard and gates to boost speed.

### CARBON SHIN GUARDS LARGE
